I am happy to bill your insurance company. It is **your** responsibility to determine the coverage of your provider and to pay the cost of treatment not covered by your plan. \*Note that insurance does not reimburse acupuncturists/herbalists for the time spent consulting about and formulating herbal medical prescriptions, therefore this must be paid out of pocket. If the outlined fee schedule above makes treatment prohibitive to you, please contact me to consult about possible sliding scale or deferred payment arrangements. I will do my best to work with you in order to make treatment accessible.

**A \$50 fee will be charged for appointments missed with less than 24 notice of cancellation.**
